For information about how we collect, use, share, and otherwise process the personal information of users under age 13 (“Children”), please refer to our [Children’s Privacy Policy](#).

What Information We Collect

We may collect information from and about you, including information that you provide, information from other sources, and automatically collected information.

- User-generated content, including comments, photographs, live streams, audio recordings, videos, text, hashtags, and virtual item videos that you choose to create with or upload to the Platform (“User Content”) and the associated metadata, such as when, where, and by whom the content was created. Even if you are not a user, information about you may appear in User Content created or published by users on the Platform. When you create User Content, we may upload or import it to the Platform before you save or post the User Content (also known as pre-uploading), for example, in order to recommend audio options, generate captions, and provide other personalized recommendations. If you apply an effect to your User Content, we may collect a version of your User Content that does not include the effect.
- Messages, which include information you provide when you compose, send, or receive messages through the Platform’s messaging functionalities. They include messages you send through our chat functionality when communicating with merchants who sell goods to you, and your use of virtual assistants when purchasing items through the Platform. That information includes the content of the message and information about the message, such as when it was sent, received, or read, and message participants. Please be aware that messages you choose to send to other users of the Platform will be accessible by those users and that we are not responsible for the manner in which those users use or share the messages.
- Information, including text, images, and videos, found in your device’s clipboard, with your permission. - Purchase information, including payment card numbers or other third-party payment information (such as PayPal) where required for the purpose of payment, and billing and shipping address. We also collect information that is required for extended warranty purposes and your transaction and purchase history on or through the Platform.
- Your phone and social network contacts, with your permission. If you choose to find other users through your phone contacts, we will access and collect information such as names, phone numbers, and email addresses, and match that information against existing users

of the Platform. If you choose to find other users through your social network contacts, we will collect your public profile information as well as names and profiles of your social network contacts.

- Your choices and communication preferences.
- Information to verify an account such as proof of identity or age.
- Information in correspondence you send to us, including when you contact us for support.
- Information you share through surveys or your participation in challenges, research, promotions, marketing campaigns, events, or contests such as your gender, age, likeness, and preferences.

Information From Other Sources

We may receive the information described in this Privacy Policy from other sources, such as:

- If you choose to sign-up or log-in to the Platform using a third-party service such as Facebook, Twitter, Instagram, or Google, or link your NUT account to a third-party service, we may collect information from the service—for example, your public profile information (such as nickname), email, and contact list.
- Advertisers, measurement and other partners share information with us about you and the actions you have taken outside of the Platform, such as your activities on other websites and apps or in stores, including the products or services you purchased, online or in person. These partners also share information with us, such as mobile identifiers for advertising, hashed email addresses and phone numbers, and cookie identifiers, which we use to help match you and your actions outside of the Platform with your NUT account. Some of our advertisers and other partners enable us to collect similar information directly from their websites or apps by integrating our [NUT Advertiser Tools](#) (such as NUT Pixel).
- We may obtain information about you from certain affiliated entities within our corporate group, including about your activities on their platform.
- We may receive information about you from others, including where you are included or mentioned in User Content, direct messages, in a complaint, appeal, request or feedback submitted to us, or if your contact information is provided to us. We may collect information about you from other publicly available sources.

Automatically Collected Information

We automatically collect certain information from you when you use the Platform, including internet or other network activity information such as your IP address, geolocation-related data, unique device identifiers, browsing and search history (including content you have viewed in the Platform), and [Cookies](#).

- Usage Information. We collect information regarding your use of the Platform and any other User Content that you generate through or upload to our Platform.
- Device Information. We collect certain information about the device you use to access the Platform, such as your IP address, user agent, mobile carrier, time zone settings, identifiers for advertising purposes, model of your device, the device system, network type, device IDs, your screen resolution and operating system, app and file names and types, keystroke patterns or rhythms, battery state, audio settings and connected audio devices. We automatically assign you a device ID and user ID. Where you log-in from multiple devices, we will be able to use information such as your device ID and user ID to identify your activity across devices. We may also associate you with information collected from devices other than those you use to log-in to the Platform.
- Location Data. We collect information about your approximate location, including location information based on your SIM card and/or IP address. In addition, we collect location information (such as tourist attractions, shops, or other points of interest) if you choose to add the location information to your User Content. With your permission, we may also collect precise location data (such as GPS).
- Image and Audio Information. We may collect information about the videos, images and audio that are a part of your User Content, such as identifying the objects and scenery that appear, the existence and location within an image of face and body features and attributes, the nature of the audio, and the text of the words spoken in your User Content. We may collect this information to enable special video effects, for content moderation, for demographic classification, for content and ad recommendations, and for other non-personally-identifying operations. We may collect biometric identifiers and biometric information as defined under U.S. laws, such as faceprints and voiceprints, from your User Content. Where required by law, we will seek any required permissions from you prior to any such collection.
- Metadata. When you upload or create User Content, you automatically upload certain metadata that is connected to the User Content. Metadata describes other data and provides information about your User Content that will not always be evident to the viewer. For example, in connection with your User Content the metadata can describe how, when, where, and by whom the piece of User Content was created, collected, or modified and how that content is formatted. It also includes information, such as your account name, that enables other users to trace back the User Content to your user account. Additionally, metadata includes data that you choose to provide with your User Content, e.g., any hashtags used to mark keywords to the video and captions.
- Cookies. We and our service providers and business partners use cookies and other similar technologies (e.g., web beacons, flash cookies, etc.) (“Cookies”) to automatically collect information, measure and analyze how you use the Platform, including which pages you view most often and how you interact with content, enhance your experience using the Platform, improve the Platform, provide you with advertising, and measure the effectiveness of advertisements and other content. We and our partners also use Cookies to promote the Platform on other platforms and websites. Cookies enable the Platform to provide certain features and functionality. Web beacons are very small images or small pieces of data embedded in images, also known as “pixel tags” or “clear GIFs,” that can recognize Cookies, the time and date a page is viewed, a description of the page where the pixel tag is placed, and similar information from your computer or device. To learn how to disable certain Cookies, see the [“Your Choices”](#) section below.

We may link your contact or account information with your activity on and off our Platform across all your devices, using your email or other log-in or device information. We may use this information to display advertisements on our Platform tailored to your interests, preferences, and characteristics.

We are not responsible for the privacy practices of our service providers and business partners, and the information practices of these service providers and business partners are not covered by this Privacy Policy.

We may aggregate or de-identify the information described above. Aggregated or de-identified data is not subject to this Privacy Policy.
